

Nurit 3020

POS/EDC Terminal

The Versatile Landline Terminal

The Nurit 3020 is Lipman's top-of-the-line countertop: an advanced landline terminal that offers the flexibility required for versatile transaction processing in the rapidly-changing retail business market.

Merchants worldwide use this high-performance, compact POS terminal to quickly complete transactions with rapid online authorizations. The Nurit 3020 supports a wide range of applications, including traditional and EMV credit and debit, loyalty/gift cards, and check (using an external check reader) and proprietary card processing. Value-added applications such as prepaid phone card replacement are easily integrated. The Nurit 3020 accepts magnetic stripe cards, EMV and other ISO Smart Cards. It offers total security for merchants operating in permanent locations, such as department stores, supermarkets, shops and restaurants.

Fast Downloading

The 14400 bps modem facilitates extremely fast downloading of software, parameters, diagnostic and other support information, thereby reducing cost of ownership.

Managing Networks of Terminals

The Nurit Control Center makes it easy to support your Nurit 3020 terminal network. The sophisticated yet intuitive management system supports a variety of back-office functions for dynamic markets. It enables controlling remote terminals, and facilitates management of the wide range of market-specific applications that can run on Nurit 3020 terminals.

Terminal Features

- High speed 14.4 bps modem for blazing fast settlement
- A small footprint frees up counterspace.
- The large backlit graphical display is easy to read
