

Tranz 330

Versatile enough to handle a variety of applications, a terminal that lets you add new functions when your business needs change.

The VeriFone Tranz 330 is the most recognized terminal in the credit card industry, and handles all of the basic needs of a retail merchant. The Tranz 330 from VeriFone is a proven terminal that offers you the ability to accept all major credit cards. The Tranz 330 is supported by almost every processor in the world today, so there is also no need to worry about compatibility.

The Tranz 330 lets retailers accept debit (ATM) cards in payment through an optional PIN pad. Plus, it supports other point-of-service (POS) applications involving the transfer of value, such as healthcare and government benefits programs.

With the Tranz 330, you can connect a slip, roll, or sprocket printer or fast, accurate sales receipts and reports. And you can quickly add, update, and create applications using TCL the VeriFone terminal control language designed specifically for transaction processing.

The Tranz 330 is so easy to use, you can complete a typical transaction with just a few keystrokes. It displays large, legible numbers, and letters - providing simple, easy-to-understand prompts that guide you through each step of a typical transaction.
